

Link2Cell Bluetooth® Coded / Cordless Cordless Phone and Answering Machine with 2 Cordless Handsets

Ships in 1-3 business days

Features

- Sync up to two smartphones to make and receive cell calls with Link2Cell handsets
- Get talking ID alerts from Link2Cell handsets when texts are received
- Block up to 250 numbers with one-touch Call Block on base unit and handsets
- Includes 3,000 number phonebook, baby monitor and battery power backup
- View and hear email, social media and other cellphone alerts via Android App

Features

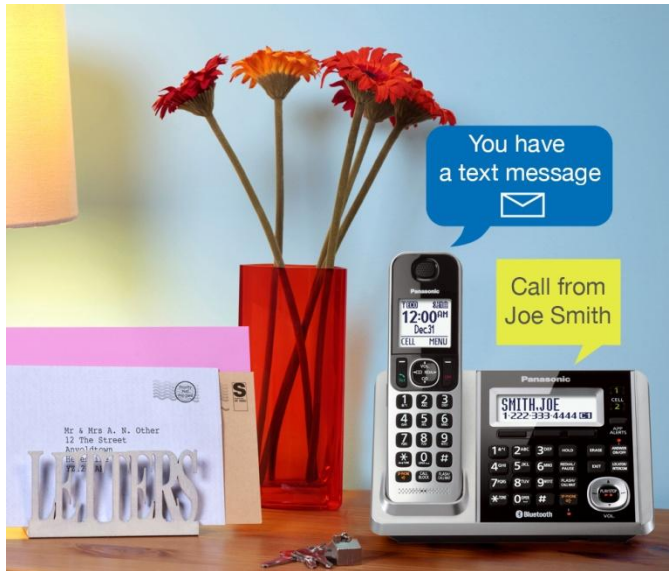

The black-metallic KX-TGF38M system makes communication more versatile for home and home office. Link2Cell syncs up to two smartphones to make and take cell calls from handsets, and a downloadable Android App alerts you when your cell receives email, updates from social media and more. Dedicated Call Block buttons on the base unit and handsets let you one-touch register up to 250 unwanted numbers. More features include one-touch cell phone pairing, a tilt-up 3.4-inch LCD, three speed dials, talking caller ID, baby monitor, 3,000 number phonebook transfer, noise reduction, power backup and a Bluetooth® headset.

**Image(s) are intended to communicate the product feature, actual phone image may vary by model.*

Sync Two Smartphones, Never Miss a Call With a simple push of a button on the base unit, you can instantly link up to two smartphones to make and take cell calls that are automatically routed through up to three system handsets. And with the extended power and signal range of advanced Class 1 Bluetooth,[®] calls can made and received from both cellphone lines simultaneously, anywhere in and around the house.

Talking Caller and Text ID Alerts Now you can hear who's calling or texting from across the room without having to get out of your chair or stop what you're doing in the next room. With advanced text-to-speech technology, Talking Caller and Text ID alerts clearly announce caller and text-sender ID information on the base unit and Link2Cell handsets throughout the home or office.

One-Touch Call Block With a dedicated Call Block button on the base unit and each handset, it's easier than ever to block telemarketers, robocallers and others — even while the phone is ringing or while talking. A simple push of a button instantly registers the unwanted number into the phone's 250-number call block database, and you can manually register any number, any time you want.

Intelligent Base Unit Controls The smart, multi-function base unit provides all the conveniences and controls you need for home and home office calling. Its large, high-contrast 3.4-inch LCD easily adjusts forward and back for maximum readability, and the illuminated keypad and function buttons are quickly read in any light conditions.

Clearly Hear Calls From Noisy Places Whether someone's calling from a busy city street or from inside a raucous room, Noise Reduction automatically suppresses background interference while also enhancing voice tones for clearer, more comfortable conversation.

Keep Tabs On the Baby Day or Night With the built-in baby monitor, you'll always know your child is safe in their crib or room. When the child wakes up or starts crying, a monitoring handset in the baby's room sends an immediate alert to the system's base unit, and to any phone or cellphone number you store in the handset for optimal peace of mind in or out of the house.

Enjoy Power When the Power Goes Out A powerful battery backup system keeps you connected when the power goes out. When you keep a charged handset in the base unit, you'll have up to 7 hours talk time of battery power backup for making and receiving calls during power outages using other cordless handsets in the house. (Two AA-size rechargeable Ni-MH batteries not included.)

Talk Longer, Find Lost Keys With its high-efficiency power usage, this phone system delivers a convenient 13 hours of talk time between battery charges, or 12 days of standby time. And with a small, optional detector device on your household or car keychain, this Key Detector-ready system also lets you quickly locate misplaced keys with the touch a button on any of the system's cordless handsets.

Keep on Top of Email and Social Media With a downloadable Android App (free download on Google Play) and the advantage of Class 1 Bluetooth,[®] you'll stay on top of important email, social media updates and more. When you cell receives an email, SMS or update from Facebook, Twitter or Instagram, alerts are simultaneously displayed on the LCD screens of both base unit and handsets, and announced audibly. Notifications from Google Calendar and low cellphone battery warnings are also displayed and announced.

Additional Features Include

- Two-way speakerphone on base unit and handsets
- 3,000 number phonebook transfer
- All-digital answering system for up to 18 minutes of messaging
- Call waiting, hold button and intercom
