- Do not insert any object into equipment slots that do not pan of the product or auxiliary product.
- Before connecting a cable, connect the grounding cable of the device first. Do not

FCC Part 68 Warning:

FCC Part 68 Warning: a label that contains, among other information, a product identifier in the format US: AAAECIOTXXXX. If requested, this number must be Proved to the telephone Company.

- 1. This equipment complies with Part 68 of the FCC rules and the requirements adopted by the ACTA. On the bottom of this equipment is provided to the telephone company.
- 2. A plug and jack used to connect this equipment to the premises wiring and telephone network must comply with the applicable FCC Part 68 rules and requirements adopted by the ACTA. A compliant telephone cord and modular plug is provided with this product. It is designed to be connected to a compatible modular jack that is also compliant. See installation instructions for details.
- 3. If this equipment [US: T2LIPNANBTH58 causes harm to the telephone network, the telephone company will notify you in advance that temporary discontinuance of service may be required. But if advance notice isn't practical, the telephone company will notify the customer as soon as possible. Also, you will be advised of your right to file a complaint with the FCC if you believe it is necessary.
- 4. The telephone company may make changes in its facilities, equipment, operations or procedures that could affect the operation of the equipment. If this happens the telephone company will provide advance notice in order for you to make necessary modifications to maintain uninterrupted service.
- 5. If trouble is experienced with this equipment [US: T2LIPNANBTH58], for repair or warranty information, Service can be facilitated through our office at: U.S. Agent Company name: 888VoIP / American Technologies, LLC Address: 611 Jamison Rd Suite 1059 Elma NY 14059 USA Tel: 716-714-8002 If the equipment is causing harm to the telephone network, the telephone company may request that you disconnect the equipment until the problem is resolved.
- 6. Please follow instructions for repairing if any (e.g. battery replacement section); otherwise do not alternate or repair any parts of the device except specified. For repair procedures, follow the instructions outlined under the limited warranty.
- 7. Connection to party line service is subject to state tariffs. Contact the state public utility commission, public service commission, or corporation commission for information.
- 8. If your home has specially wired alarm equipment connected to the telephone line, ensure the installation of this [US: T2LIPNANBTH58] does not disable your alarm equipment. If you have questions about what will disable alarm equipment, consult your telephone company or a qualified installer.
- 9. If the telephone company requests information on what equipment is connected to their lines, inform them of: a)The ringer equivalence number [NAN] b)The USOC jack required [N/A] c)Facility Interface Codes ("FIC") [N/A] d)Service Order Codes ("SOC") [N/A] e)The FCC Registration Number [US: T2LIPNANBTH58]
- 10. The REN is used to determine the number of devices that may be connected to a telephone line. Excessive RENs on a telephone line may result in the devices not ringing in response to an incoming call. In most but not all areas, the sum of RENs should not exceed five (5.0). To be certain of the number of devices that may be connected to a line, as determined by the total RENs, contact the local telephone company. The REN for this product is part of the product identifier that has the format US:AAAEQ##TXXXX. The digits represented by tfitt are the REN without a decimal point. For this product the FCC Registration number is [US: T2LIPNANBTH58] indicates the REN would be NAN.
- 11. We suggest the customers use a surge arrestor to protect the device. FCC Statement This equipment has been tested and found to comply with the limits for a Class B d igital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful, interference to radio communications. However,

there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: — Reorient or relocate the receiving antenna. —Increase the separation between the equipment and receiver. — Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. — Consult the dealer or an experienced radio/TV technician for help.
